**EBSCOhost Class** – For nursing, medical and general information

EBSCOhost offers the CINAHL (Cumulative Index to Nursing and Allied Health Literature) database and other nursing, health business, and consumer health databases. In addition, there are databases with articles on various subjects, including many helpful to younger students.

*Approved for 1 CEU\**

**Medical Library Overview Class** – For medical and nursing information

Learn how to use the Medical Library and how to find the books and articles you need online and in print and what to do if we don't have a particular book or article. We can tailor this introduction to you and your schedule. If you are affiliated with Rutgers University, we can show you how to access their library's electronic resources, and give you an overview of their website.

**Ovid Class** – For medical and nursing information

Ovid provides access to MEDLINE and several Evidence Based Medicine databases. MEDLINE is a database offered by the [U.S. National Library of Medicine](#) that includes over 24 million citations for biomedical articles dating back to the 1940s, and even some to the 1800s, and also includes a subset of nursing journals.

**Searching for and Evaluating Medical Websites Class** – For medical and nursing information

Learn where to find and how to assess reliable patient and professional level health information on the Internet.
