The Children's Hospital
AT SAINT PETER'S UNIVERSITY HOSPITAL
A MEMBER OF SAINT PETER'S HEALTHCARE SYSTEM

Caring, healing and providing the most comprehensive medical services for children has always been a top priority at Saint Peter's. As a state-designated acute care children's hospital, The Children's Hospital at Saint Peter's University Hospital offers a full-range of pediatric specialized healthcare services for newborns and children through young adulthood.

As one of the leading maternity hospitals in New Jersey, with close to 5,700 deliveries in 2016, Saint Peter's is well positioned to care for those affected by one of the most common birth defects in the United States – cleft lip and cleft palate.

The Craniofacial and Neurosurgical Center at The Children's Hospital at Saint Peter's University Hospital comprehensively treats and manages these and other craniofacial abnormalities. One of five State recognized Cleft Palate teams in New Jersey, Saint Peter's primarily serves those living in Central and Western New Jersey.

Babies, children and adolescents who are born with these conditions are cared for by a multi-disciplinary team of specialists from a number of medical disciplines, including: Plastic Surgery, Otolaryngology, Pediatrics, Genetics, Neurosurgery, Orthodontics, Dentistry (includes Pedodontics), Ophthalmology, Radiology, Audiology, Speech Pathology, Oral Surgery, Prosthodontics, Nursing, and Social Services.

Many of our specialists also serve as Operation Smile volunteers, traveling throughout the world to perform reconstructive surgery for the underprivileged population.

The proceeds from this year's event will strengthen Saint Peter's commitment to our patients and their families. With your support, we will continue to expand the treatment, rehabilitation and support services we offer to ensure their physical and emotional needs are met.
