NEONATAL INTENSIVE CARE UNIT

As a state-designated acute care children's hospital, The Children's Hospital at Saint Peter's University Hospital offers a full-range of pediatric specialized healthcare services for newborns and children through young adulthood.

Saint Peter's Neonatal Intensive Care Unit (NICU) is built on the philosophy of individualized and family-based care. This support is provided by the NICU staff.

Daniel Osterman is a 1996 NICU graduate, having spent 109 days in the unit. Today, Daniel is a 2019 graduate of Northeastern University, where he majored in Supply Chain Logistics and minored in Chinese and Data Analytics. The Osterman's credit the NICU staff for Daniel's success.

The proceeds from this year's event will strengthen Saint Peter's commitment to our NICU babies and families, providing needed capital improvements, equipment, and additional programming.
