

# A system wide approach to health care.

Saint Peter's Healthcare System was formed in 2007 and reflects the expansive scope of health and wellness services we offer to our community. However, our history dates back to over 100 years ago when we opened the doors of our first hospital in New Brunswick in 1872. Today, in addition to Saint Peter's University Hospital and The Children's Hospital at Saint Peter's, the healthcare system includes the Margaret McLaughlin McCarrick Care Center, our nursing home in Somerset; the New Brunswick Cardiac Catheterization Lab and the CARES Surgicenter, located in the Center for Ambulatory Resources adjacent to the hospital; our Adult Day Center in Monroe; the Saint Peter's Sports Medicine Institute in Somerset; and the Saint Peter's Foundation.

At Saint Peter's Healthcare System, you will find leading-edge technology and an experienced, award-winning staff. You will also find the caring and compassion that people have turned to for over a century.
