

**THEY UNDERSTOOD
I DIDN'T WANT A DIABETIC WOUND
TO LET THESE MOMENTS
GET AWAY**

Thanks Saint Peter's

Frank DeMonico

THE WOUND CARE SPECIALISTS AT SAINT PETER'S SAVED MY LEG...AND MY LIFE.

I've got two loves in my life—my family and fishing. But after a wound on my leg just wouldn't heal, I thought my fishing days were over. As a diabetic I was really worried, because non-healing wounds can cause serious complications. Today, thanks to the wound care specialists at Saint Peter's University Hospital, my wound has fully healed. I'm back fishing again...and teaching my grandchildren how not to let that big one get away.
